Thinking Out Loud

(By H. M. L.)

As in the case of the California legislature, Congress in its haste to adjourn, slashes, jams, compromises, and substitutes legislation, madly grinding the hopper. As though the White House had administered a violent cathartic to Capital Hill, the law makers force through the "must" legislation. The lethargy of months is followed by the frenzy of a week. However, even if, as seems probable, many of the measures are voided a year hence in the United States Supreme Court, the country will breath easier with Congress adjourned. It adjourns at an opportune time. Business, construction, manufacturing, many departments of agriculture are well on the way to recovery. With Congress and its threats and uncertainties out of the way, the track is clear.

One of the reasons for Congressional speed is the desire of the President to go West. The Democratic administration is beginning to feel a bit uncertain of the 1936 outcome. The question has recently been asked with increasing insistence through out the country: Can Roosevelt be re-elected? The more this question is propounded the uneasier becomes the Democratic leadership. To restore this waning confidence, which started on its downward course with the United States Supreme Court decision respecting NRA, the President will "swing around the circle," reassuring, claiming and declaiming. We surmise that presently he will begin to lay the blame for New Deal failures on the shoulders of the nine justices of the Supreme Court.

We doubt the efficacy of this scape goat. The Supreme Court of the United States to the minds of the great majority of thinking citizens is a Rock of Gibraltar. It has stood unchanged through Federalist, Whig, Democratic and Republican administrations. It may not always be right, but it has proved nearer right and safer in general than quick decisions of administrations meeting transient problems of a great nation. It takes the long view. Aloof and isolated from the passions of politics, it can do this with the disinterested and expert knowledge of an astronomer measuring the courses of the stars.

The chaotic condition of another shift of relief work from SERA to WPA, all its attendant uncertainties and wastes, has prompted some critics of the Roosevelt administration to say: "Politics is at bottom of it." As a matter of fact, if playing politics, is the cause of these periodic upheavals and disorderly go-and-stop program, it is a very poor brand of politics. More than ever people grow distrustful of government management. There has been some criticism of the fact that while some hundreds of men are laid off or transferred to direct relief, the office staffs go bravely on with no cut in pay or hours. But as a matter of fact, to dismiss of lay off the staffs which have been more or less trained in their duties, would only be to add further confusion, when WPA finally gets its marching orders. There must be some central corps left to function in this emergency relief program.

As a whole, looking back over the last two years, there is little pertaining to the administration side of the relief program which commends itself to business men. By that we do not mean that those in immediate charge of finding employment and carrying out the many projects approved and undertaken, have not done their best. The maladjustments are mainly in Washington where a feud between Hopkins and Ickes has attained national notoriety. This feud sifting down through all the intermediates, regional, state and county directors is probably largely responsible for catch-as-catch-can local programs. The whole period has been characterized by wastes, comparable to and probably equal to those occuring when the country is at war. When government does anything in a hurry, it would seem, the cost is bound to be high.

TWO MINERS HURT

Two Lava Cap miners, Tony Campbell and Louis Ward, were badly bruised Saturday when they were jammed against the sheave wheel of a new hoist. They were taken to Jones Memorial hospital for treatment. It is reported this morning that they will soon be able to resume work.

BOY TRAINED IN CITY POOL SAVES ANOTHER'S LIFE

It is learned today that last Tuesday 17-year-old Wiley King, Jr., son of Mrs. Gypsy King of Nevada City, rescued his companion, Kimberly Anderson, from drowning in Lake Tahoe. Anderson was senzed with a stomach cramp. King went to his rescue. Anderson remained calm and responded promptly when given directions for his rescue. He was pulled to short and promptly treated for the cramp. He was none the worse for his experience.

Wiley King, Jr., modest in his rescue, was one of a large class that took life saving lessons under Addison Jaynes at the Nevada City municiual pool. In a recent test all boys were eliminated except five when young King won over all the others.

The new pool has been a source of great pleasure to hundreds of children all summer, but with the saving of a life through lesson given at the pool by Jaynes. life guard, it would seem that the pool is worth much more than the pleasure it gives to the hundreds of boys and girls.

OLD TIME HOUSE AT SAN JUAN IS AGAIN OCCUPIED

Mr. and Mrs. Robert Braithwaite of French Corral have leased the old-time Percy Northcott home in North San Juan where they intend to make their future home.

Just exactly ten years ago this month the Northcott family moved away and ever since that time the quaint old house has been closed and neglected. Dust collected in thick masses and covered the walls and floors with grey blankets. Rats and mice, left alone with their destructive habits, gnawed unmolested at draperies and upholstering, and over the entire place hung the depressing odor of disuse and decay.

Mr. and Mrs. Braithwaite have spent the past two weeks in making the delightful old place livable again. The interior has been cleaned and aired and the beautiful old furniture polished and put back into use. The yard has been spaded and raked and cleared of its many years undergrowth of vines and brush. And last Saturday night, for the first time since its desertion, the quaint windows were left open and the soft yellow glow of domestic life again shone forth into the night as the old house again took its rightful place among its neighbors.

SAN JUAN FIESTA NETS ABOUT $600

Chairman Trubschenk, of the San Juan Fiesta finance committee, reports that gross receipts from all departments and activities of the Fiesta were slightly over $1700. It is expected that when all costs are paid the net recepits will amount to approximately $600. While this will not be quite enough to defray the cost of the new community house at North San Juan, it is expected that one or two entertainments and dances given there in the next few weeks will clear the building of all indebtedness.

DRAFTED FIRE FIGHTER REFUSES, GOES TO JAIL

A forest fire broke out at Webber lake Wednesday and Ranger Pete Land summoned a crew to go there and extinguish it. Amongst those summoned was L. J. Lawrence, who refused to go. He was arrested and taken before Judge M. Bony, who fined him twenty dollars or ten days. He didn't have the dollars, and Constable R. W. Martin took Lawrence to Downieville to thing over his refusal for ten days.

STATE FAIR GOES ON ICE

(C. N. P. A. Service)

Ed Parker of Sacramento finds there are still thrills for the Iceman as he drops the first cake into one of the new ice-cooled drinking fountains which will refresh visitors during the ten days of the California State Fair, which opens in Sacramento on August 31. More trees, more benches, and a big shaded picnic ground are among the other comforts which will add to the enjoyment of the coming fair.

STATE FAIR TO OPEN SATURDAY

California's epochal progress during the past year in all branches of industry, agriculture and education will be celebrated in ten ever-changing days and nights of festivities beginning next Saturday, when the 81st annual California State Fair throws open its gates.

True to its tradition of being ready on time, the fair will start every one of its great divisions into full activity the moment Governor Frank F. Marriam turns the great golden key with which the state's head has annually opened the exposition for years past.

Overflow exhibits, record entries for the great afternoon racing program and night horse show classic, the biggest dairy cattle and swine show in the past ten years and similar evidence of a greatly expanded interest in the fair have made the fair staff organize to handle what is expected to be a new record crowd of nearly 500,000 visitors.

In addition to the harness and running races with their pari-mutuel betting ,which will run each day except on Sundays; daily polo games and the night horse show classic, a new major attraction has been added this year in the bralliant musical and dramatic extravaganze "The Conquest of California."

Using the world's largest rovolving stage, a cast of nearly one hundred performers will each night present colorful episodes from the state's history before the crowded grandstand.

The race track itself will become a fore stage upon which ox carts, Indian ponies, covered wagons and other features will join in the spectacle.

As a nightly curtain raiser for the extravaganza a fire works bombardment will light the heavens.

BANK REPORTS STATE DOUBLES CONSTRUCTION

SAN FRANCISCO, Aug. 26.—Consistent gains in building and construction have been the outstanding development in California business during the first seven months of 1935, according to the Bank of America Business Review.

With each month so far this year showing a substantial improvement in building and construction, the aggregate gain for the entire period as compared with the corresponding seven months of 1934, was 109.8 percent. July gained 126½ percent over July of 1934.

San Francisco and Los Angeles in July gained 113 percent and 117 percent respectively over July of last year, and outside the metropolitan areas of the state, gains were given as even greater. Riverside produced the outstanding increase, with building permits up more than 2,000 percent over July 1934. Other outstanding gains were made by San Jose, with 758 percent; Oakland, with 562 percent; and Glendale, with 439 percent.

Sixt four retail stores in California increased their dollar volume of sales last month by 19.2 percent over the like month last year. For the first seven months of 1935, this state's retail establishments reported an aggregate gain of 10.7 percent over the period ended July 31, 1934.

California bank debits in July were up 30.9 percent over July of last year, and for the first seven months of the year the gain was 16.7 percent, indicating a substantial increase in the velocity of business.

FORESTER PROMOTED

CAMPTONVILLE, August 23.—James B. Titus, better known as "Jimmie," popular chief of the local fire suppession crew of the Camptonville headquarters of the Tahoe National Forest, left recently for the Black Hills in South Dakota where he will enter position as Junior Forester and probably have charge of an ECW Camp in the Narney National Forest.

NEV. CITY MAN MAKES GOOD IN PHILLIPPINES

The Baguio Bulletin of July 19, 1935 which has just arrived in Nevada City reports that:

"Next Thursday, August first, George O Scarfe, distinguished geologist and eengineer, will formally conclude his connections with the Benguet Consolidated Mining Company and take up his new affiliation He will become chief engineer and geologist of Consolidated Mines Inc., and will have full charge of the intensive development program which this company has mapped out for its various properties

"Mr. Scarfe came to the Philippine Islands originally as a representative of the Newmont Mining Corporation after a distinguished career in the United States and in South America. After a survey of mining properties here he recommended to his principals the wisdom of entering the Philippines. His advice however, was not followed and he resigned his position to become consulting geologist and engineer with Benguet."

"Many of the advances which were made by Benguet particularly in increasing the available reserves at Anamok are credited to the sound geology and good workmanship of Mr. Scarfe.

"He indicated that he desired to make the change to a younger company in order to have wider scope in bringing into production properties not yet so well established and well known as Benguet."

George O. Scarfe was originally a Nevada City boy, son of the late George E. Scarfe of this city. His father held splendid positions of trust with the P. G. & E. company in this territory, for many years. His advances into splendid positions are being watched with interest and pleasure by his many friends here.

J. H. Suss, former resident now of the bay district, was here today on business pertaining to his property on lower Broad street.

County Treasurer Frank Steele and family have returned from a vacation spent at Santa Cruz.

School Registration at New High Mark

More than 600 school children marched, frolicked and capered to school this morning in Nevada City. Of these 250 registered at the high school and 366 at the Washington grammar school. Last year the first day's attendance at the high school was 192. and at the grammar school 348. Principal Walter Carlson of the grammar school expects that during the week attendance will be swelled 380, while at the high school Principal H. E. Kjorlie expects the registration to reach 275.

The high school faculty consists of the following: H. E. Kjorlie, principal; Mrs. E. G. Flewellen, Miss Esther Tremaine, Miss Nancy Jones, Mrs. C. A. Libby, N. B. Baggley, Miss M. A. Bartholomew, Miss Thelma Peterson, H. W. Hobbie, L. E. Sweeney and B. C. Barron.

The grammar school staff consists of Walter Carlson, principal. Misses Gertrude Goyne, Savory Ford, Ruth Tamblyn, Ruth Hogan, Florence Smart, Mrs. Mabel Flindt, Lois Shaw, Miss Susette Dornberger, J. Clark MsGinness. Mrs. C. A. Libby will teach music in the grade as well as the high school.

DICK MARRIOTT WRITES OF NEW YORK SIGHTS

Dick Marriott, one of the three Nevada City Boy Scouts now touring the country, is certainly enthusiastic. Here is his last letter to his parents, Mr. and Mrs. J. E. Marriott, just received:

Century Hotel. New York
August 21

Dear Mother and Dad:

Here I am—writing over subways, under elevated and street cars. Lord! over six million people.

Saw the slums yestereday. Came into town at 10:45. On the other side of the river. Weehawken, New Jersey. Got to this hotel at 11:15.

Our headquarters is the Knickerbocker, but we are scattered all over 44th Street hotels. We have swell rooms.

Saw all of Rockefeller Center last night. Gee!! What a place. There are supposed to be twelve buildings but only nine are completed. We went there at 7 p. m. Came back at 11. Then went again—got to bed at 2. Up at 7. Just like train hours. One night we only got three hours sleep.

Got your letters last night. Sure glad to get them. Just think where I am. Seems almost impossible, even though I'm writing from here. It's 8:15 August 19th. It's 4:25 there—you are still in bed. I'm writing on the top of my bed in New York City.

Did you get my Canadian post card? I'm collecting all kinds of souvenirs which I'm sending today or tomorrow, so watch for my package.

If you listened to Major Bowers, yesterday you can think of me at being very close to home. I was in the N B. C. studio then, but there were so many people ahead of me, that I didn't get into that studio until 10:30. It was 8:40 when I got in the room where I was about 100 yards from him and his broadcast.

Gee! What a place! The stldio he uses seats 1300 people not counting his own bunch. We saw how they make all the noises, rain, boats, soldiers, horses, etc.

We're going to see Washington, D. C., after all—pretty good.

Saw West Point yesterday. Saw Buzzie Chapman. Gee! He looks swell. Call the doctor and say Buzz is doing fine.

I'll write again tomorrow. We leave at midnight. Saw Empire State at 9:00.

See ball game today. Cincinnati Reds versus New York Giants.

And now I'll see Coney Island, isn't worth talking about.

Your prodigal son, Rich.

BIRTH

HANSON—At Wenatchee, Washington, August 18, 1935, to Mr. and Mrs. Clarence E. Hanson, a 7-pound daughter, Cleora Evonne. The Hansons are former Camptonville residents.

YELLS, SONGS AT SCHOOL OPENING

With an opening assembly during which faculty members and student body officers were introduced, Nevada City high school opened its doors for the beginning of the new semester. Fifteen minute class periods were held through the morning, and late registrations and schedule changes taken care of throughout the afternoon.

The assembly was opened by Principal H. E. Kjorlie who made a speech of welcome to the students and introduced the faculty members. Each member gave a brief talk and added to the welcome already extended by the principal. Walter Warnecke, student body president for the coming year, took over the meeting and introduced Ruth Curnow, vice president; Gertrude Schreiber, secretary; and Pauline Rozynsky, treasurer. L. E. Sweeney, music instructor, lead the student body in a school song which was followed by a yell. Instructions and announcements completed the day's assembly, and the students passed rapidly through their class schedules.

TEST FOR CHILDREN'S HEARING

Mrs. Isabel Heffelfinger, County Supervisor of Health, has announced that the county has rented an audiometer, to test the hearing of all the children in the county rural and city schools. The machine has been rented for the month of September from the Association for Prevention of Deafness.

REGISTRATION OF AUTOS GOES UP

SACRAMENTO, Aug. 26. — With automobile registrations for the first seven months of the year only short 42,860 of the greatest 12-month total registration in the history of the state, California apparently is destined to smash all annual records by the end of 1935.

Ray Ingels, director of motor vehicles, today made this optimistic report to Gov. Frank F. Merriam when he stated that from January 1 to July 31 a total of 1,899,109 pleasure cars was registered. This figure compares with the 12-month total of 1,941,969 pleasure cars registered in the record year of 1930.

In the seven month period of this year, o total of 2,139,452 vehicles—including trucks, trailers, pleasure cars and motorcycles—ras registered. This figure compares with the record all-time vehicle registration of 2,145,474 made in 1931.

An interesting picture of California's motor vehicle registration growth is told in Director Ingels' report, which shows that there were only 6428 all-type vehicles listed in the first report of the state department for the period March 22, 1905 to June 30, 1906. The state first exceeded the million registration mark in 1923, when 1,056,756 pleasure cars were listed with a total of all-type vehicles of 1,137,445.

PARK STREET SOON TO BE ONE OF CITY'S BEST

Street work has so far progressed on Park avenue in this city that oil will be poured Tuesday. It has been graded, rolled and about three inches of crushed rock spread and rolled again. The hot oil will complete the operation and give that section one of the best streets in the city.

This street leads to the swimming pool and Kopps Cabins besides a large residential section. It is becoming one of the heaviest travelled streets in Nevada City.

JIM CONSOLIDATED MINE

The Jim Consolidated mining company above Graniteville being operated by C. G. Columbus is now reported to be on a production basis. The company started work on the property in 1932 and have worked over a long period of months in its development. A mill on the property is used in the reduction of the ore.

The Golden State

(Contributed)

New Yorkers, Iowans, and our Florida friends often accuse Californians of gross exaggeration when we speak of the simple and obvious fact that the Golden State is more richly endowed with nature's blessings than any other.

But seriously, now—do they really mean it?

If we are to accept statistics compiled by Californians Inc., a goodly number of Iowans, Floridans and others are at least sufficiently intrigued by our modest claims to want to come out here and see for themselves.

At present motor tourists are pouring into California at a rate that bids fair to exceed the peak travel year of 1929. It is estimated the 1935 season will be worth $235,000,000. Already it is running some forty percent above last year's rate.

Apparently those who have deprecated our statements have had their tongues in their cheeks all the time.

And that is all right with us, especially when they continue to come and leave their millions out here each year.

WEEKLY COMMENT

BY

Christian Andersen

After the noise and the commotion of the Fiesta the typewriter sounds off key. Still the click of the type hitting paper is a welcome sound. Then too, another experience which generates new thoughts and new viewpoints may open mental vistas hither to undiscovered. Cooperation of other folks is always a valuable lesson. In a fiesta of the magnitude of the San Juan Fiesta which carries involving a mass of detail, any part neglected will ruin such a show. With few exceptions everyone carried their share of the load for which I am deeply grateful.

War clouds over Europe again threaten the tranquility of the world. There are some most powerful characters moving on the stage of world affairs and it is to be hoped that differences, no matter what they may be, can be settled by some other method than by the usual and generally accepted expedient of a general blood-letting such as has heretofore been the custom.

Those who jibe at the country newspaper might well ponder these figures and hesitate in their carping about suhch media of dissemtinating opinions and news. In the San Juan Fiesta we received gratis from all the local papers a mass of publicity aggregating 600 column inches and most of it was front page news. With one exception these was never mentioned any stipulated amount of advertsing which we must give them to obtain this marvelous cooperation. Even out of town papers who could not hope to receive any direct financial gain from such an affair were most generous in their notices of the event. The papers are always quick to recognize a genuine community effort and if my commendation of them means anything I give it unstintingly.

Seldom seen any more, the buskers who made their living giving shows on the street Most interesting they were, living a gypsy life and moving from town to town, giving their little show and making a collection from the onlookers. Some, graduated to the big tops and many became stars of the stage. I knew two aerial actors who busked the country in a high aerial act. Their trapeze equipment was carried around with horses and wagons and in the evening the arialists would build a bonfire and in this precarious light the "pufawmers" would do their high and dangerous double somersaults and other highly dangerous antics. In this particular instance they did not keep the nickels or dimes dropped in as the hat was passed. This small change went to the kids who came to be thrilled by these daring aerialists. These and other types of such free entertainment seem to have died out with the advent of the movies. I am old-fashioned enough to mourn their passing.

A clean faced eager boy left here this morning to take up his school work once more. This fellow had been promoted to the next grade higher and seemed anxious to explore this new field of adventure. The usual conjectures as to who will be the teacher this year and the wondering how hard the work will be, has been going on for some days. As the time neared these eager truth-seeking youngsters are inspirational to us oldsters because we too are still exploring life's mysteries and we can liken the semester to the years. What does this year hold for us or rather what can we make this year hold for us, I mean of course in accomplishment. I am not speaking of financial things but rather of the cultural. We might make a start by determining to speak the English language as it should be spoken and if we accomplish this important item we will find that the resultant exactitude will take root in other mental attributes. In this sense the mental discipline will find ramifications and root in our everyday life which will be most beneficial.

PICNIC IN HONOR OF CAMPTONVILLE TEACHER

CAMPTONVILLE, Aug. 26.—A number of young people from the Camptonville Branch High School journeyed to the Cross on the Pendola Hill Friday to give a picnic in honor of Miss Vera Pendola, and her brother Billy Pendola who left shortly afterwards for San Francisco where they will reside for the winter and continue their school. Bill is a graduate of this years graduating class of the local school and Vera has been a student therein.

These attending included: Mrs. Kate Hope Livingston, teacher. Misses Maxine Blackman, Dorothy Hays, Mary Hackley, Anna Lang, Matilda Hanson, Juanita Cassidy, Betty Wallace, Harriet Church, Thelma Church, Betty Wa'lace, Mabel Olson, Charles Wilson, John F. Lord, and Jack Newson.

CUTS ARTERY

CAMPTONVILLE, Aug. 24.—R. C. Zaring, mechanic at the Lang Garage on the Bedrock, had the misfortune of badly cutting his hand on the license plate of his car while cranking it Thursday evening. He cut on artery and was rushed to Nevada City for medical attention by William A. Lang. Several stiches were taken in the cut and it will be some time before it will be well.

PUBLIC CONFIDENCE RESTORED BY BANKS

American Bankers Association Describes Its Activities to Create Better Understanding Regarding Banks.

NEW YORK.—Eight different lines of activity through which the American Bankers Association is constantly aiming to promote better public understanding and opinion in regard to banking and the attitude of bankers toward legislation are described in detail in a statement made public here by R. S. Hecht, president of the association.

The aim, he says, is "to strengthen the real basis for good opinion in regard to the banks," through fostering informative bank advertising in the newspapers and in other ways. The statement was issued in reply to suggestions received urging a nation-wide public educational program in regard to "the business of banking and its place in the life of our country."

Mr. Hecht declares that "we have tried very hard to convince the public that the banking fraternity has truly profited by the lessons of the past, is determined to approach all questions of banking policy from the broad viewpoint of public welfare and is prepared to carry its full share of the burden in connection with all efforts to restore sound prosperity in this country."

The Means Employed

In describing the various measures of the association "to exert a beneficial influence on public opinion regarding the functions, methods and operations of banks," Mr. Hecht enumerated the following activities:

1. The Public Education Commission, which prepares plain language talks about banking for use of bankers and others before schools, civic clubs and over the radio.

2. The Constructive Customer Relations program, installed in many banks to help qualify bank employees to promote a better informed and more sympathetic attitude among their customers regarding banking.

3. The Publicity Department, supplying city and country daily and weekly newspapers with articles regarding banking and allied subjects and furnishing the general press with news and information regarding the activities of the association.

4. The Advertising Department, supplying members of the association with a series of informative newspaper advertisements setting forth in brief, popular language the methods and policies under which banks operate, their effective practices for protecting depositors' funds, the services they render and the various ways in which they cooperate with business in their own communities in fostering sound recovery and progress.

5. The Executive Officers and the Committee on Banking Studies, who are active, particularly at Washington, in consulting with Administration and Congressional leaders in formulating proposals for banking reform based on broad lines of public welfare.

6. The Agricultural Commission, promoting among bankers in the farm districts the practice of aiding their farm customers in installing on their farms better financial and operating methods.

7. The American Institute of Banking, having primarily to do with the technical education of the younger banker, but now directing these efforts toward also playing a part in improving public relations for banking as a whole, particularly through stressing the public responsibilities and the ethical aspects of practical banking.

8. The publication of "Banking," the official organ of the association, circulating among bankers, bank directors, business executives, economists, law firms, government departments, libraries, colleges, public schools and other publications, presenting articles regarding banking and banking viewpoints.

The Objective Sought

In commenting on the foregoing program, Mr. Hecht says that it is not "the primary objective to attract attention particularly to the American Bankers Association as such, but rather to focus attention on and give impetus to those ideas which it believes are beneficial in promoting understanding and solidarity among banking, business and the public." He adds:

"Our program for the development of satisfactory public relations for banking does not consist merely of newspaper publicity. It is calculated to produce a continuous and cumulative effect by varied efforts which are aimed to work day in and day out to strengthen the real basis for good opinion in regard to the banks.

"To have favorable things said about the banking business in the newspapers and over the radio is, the association recognizes, very helpful toward creating a sound public opinion regarding banking. But the association believes that the most important thing ultimately is to foster throughout the banking profession the doing sincerely of those things that reflect favorably the sound, helpful practices of the business of banking, and that then the true news of its constructive activities will constitute the best answers to misrepresentations aimed at banks and bankers."

Predicts Farm Loan Expansion

NEW BRUNSWICK, N. J. — With marked improvement in agriculture already apparent, and further improvement confidently expected, a greatly expanded volume of farm credit will be required, especially short-term credit, according to a statement here recently by W. I. Myers, Governor of the Farm Credit Administration, Washington, D. C. He was speaking before the Graduate School of Banking, conducted jointly by the American Institute of Banking Section of the American Bankers Association and Rutgers University.

"Some people have expressed a fear that the Cooperative Production Credit Associations are threatening the business of country banks, but these institutions have neither the desire nor the resources to monopolize a field which is still in the infancy of development," Governor Myers said. "Farmers who get their credit on time or by charge accounts have a basis for cash loans and should be buying their credit from a bank, production credit association or other institutions that sell credit on a business basis."

GOOD SERVICE COSTS NO MORE

A modern establishment—a trained, intelligent and courteous personnel — distinctive motor equipment and other evidences of progress and prosperity are NOT an indication that funeral service charges will be high. A successful concern can be built only by serving honestly and well, at prices that are fair and reasonable.

RFC LOANS AID MINE INDUSTRY

Following out the letter of the law, out of the last twelve mining loans granted by the Reconstruction Finance Corporation, eleven are for strictly development purposes. This is the greatest departure from original methods that has been undertaken by the organization. These loans vary from $8,000 to $20,000 and are giving the greatest stimulus to mining ever undertaken by the government. This, in connection with the short form of application blank, secured from the Reconstruction Finance Corporation, 1825 H Street, N. W., Washington, D. C., or through Mining and Industrial News, gives mining its greatest opportunity.

Under this new procedure, many partially developed mines may become producers. But it does not include prospects. A property that has been sufficiently developed to show possibilities of the loan being repaid, if additional work is done, offers the security necessary to secure a loan.

In the following list of all the loans thus far granted, the last 12 are the most recent loans.

Applicant	Amount
Sutro Tunnel Coalition, Inc	$160,000
Cram's Incorporated	12,000
Southwestern Metal Mines, Inc.	8,000

SOCIAL EVENTS

Major and Mrs. Delaney Are Home from Vacation

Major and Mrs. Leroy Delaney and Miss Roxanne Boggs, returned Friday evening from a vacation spent on the Russian River and in San Francisco. They were guests of Mr. and Mrs. John McNear at their country estate, a seventeen acre tract of redwoods and lovely home at Monte Rio, near the Bohemian grove. In San Francisco they attended the opening night of Jan Garber's supper club orchestra at the St. Francis Hotel, which had been playing on Santa Catalina island, coming there from Chicago. There were 600 at the dinner and they were seated in the murals room. Major Delaney stated the muals by an American artist, J. Herter, were a never-to-be-forgotten sight. Illustrations of the murals were on the menu cards. Persia on one side and the Orient on the other.

Bride-to-be is Feted in Sacramento

During the past week sorority sisters of Miss Betty Gaylord, daughter of Mr. and Mrs. Ralph Gaylord, of Sacramento, were told of her betrothal to Joseph R. Demeter at the Alpha Chi Omega House in Berkeley. Miss Gaylord was also entertained at a party given in Sacramento recently in the Grosch home by Misses Phoebe Grosh and Arleen Haltwood. The bride-to-be is a niece of Miss Minnie Brand of Nevada City and with her parents lived in this city before removing to Sacramento.

Demeter graduated from University of California, Berkeley this spring and is a member of Theta Chi Fraternity. He is the son of Mrs. Rowena R. Demeter of Beerkeley.

St. Agnes Guild to Give Party in Garden

Arrangements are being made for seating one hundred ladies next Thursday afternoon in the beautiful garden of the C. E. Parsons, on the occasion of the St. Agnes Guild party. Many members and their friends have already engaged tables for this pleasant event.

JEAN HARLOW AND WILL ROGERS AT NEV. THEATRE

The two most-talked of screen stars in Hollywood, come to the Nevada Theatre Monday and Tuesday in "Reckless." The stars are of course, Jean Harlow and William Powell. The picture is one of the thrilling and colorful for some time. The story concerns a beautiful blonde dancer who rises from a country carnival dancer to starring heights on Broadway. She captures the nation and marries a playboy millionaire, and then proceeds to charm the inner social circles.

Wednesday and Thursday, the Nevada Theatre will present the beloved Will Rogers in "Doubting Thomas," a comedy which will set you howling with laughter. The story tells of Roger's wife, played by Billie Burke, who goes theatrical, while her home-loving husband, a simple sausage manufacturer, is thrown in a turmoil.

FRANK DAVIES PUTS "MOTOR SWAY" TO WORK

Frank Davies and Sons, enterprising garagemen who took over the Plaza Garage recently, have installed the latest in lubricating equipment, the "motor sway". They are well pleased with it. A machine was on the motor sway this morning receiving its greasing from a gun operated by compressed air. The car body was raised completely off the chassis and as the machine rocked from side to side as in action, it was receiving its lubricant in a quick, efficient manner.

HOME REMODELED

The home of Mrs. Annie Browning of Boulder street has had a new cement foundation placed under it and some remodeling done inside within the last few weeks. The building is receiving its second coat of paint today. Carpenters tore down an old barn in the rear recently and have built a row of four neat garages.

JACKSON ENGLEBRIGHT HOME FOR HIGH SCHOOL

Jackson Englebright, son of Congressman Harry L. Englebright and Mrs. Englebright, arrived in Nevada City Sunday to stay with his aunt, Mrs. J. J. Jackson, Sr. He entered high school this morning and will remain here until the first of the year when his parents return to Washington, D. C.

Jackson stated his father thought Congress would adjourn the middle of this week and that his parents will arrive in a week or two.

AMATEURS OF SAN JUAN FIESTA WIN PRAISE

The winning amateurs in the San Juan Fiesta radio amateur contest appeared in the Nevada City theatre on Saturday night and the Strand in Grass Valley on Sunday night. These young people were presented by Christian Andersen their sponsor of Nevada City. The Forest Hillbillies Elmer Morris and Weston Wyllie as well as the Deennis Trio who are Jackie Dennis, Renee Dennis and Elmo Dennis won new laurels and much commendation for their performances in both theatres. They were all encored to the echo and all who saw them stated they had the earmarks of the real professional. Some time in the near future Andersen has the promise of presenting them all again.

WASHINGTON NEWS

(By MRS. CLYDE COLE)

Mr. and Mrs. H. O. Kohler and son George spent the week end at Pleasant Valley at the Schwartz ranch.

Leroy and Preston Thompson of the Spanish mine spent Sunday in Washington with friends.

Mr. Bergman is visiting his family over the week end.

A Schwartz and son Milton, spent Sunday at Pleasant Valley, with relatives.

Mrs. Julia Weber of Berkeley was a guest of Mr. and Mrs. Clyde Cole on Sunday.

W. E. Luce and wife, of Reno, Nevada, were visitors over Sunday.

Mr. and Mrs. Chas. Bley, have added a new bath room to their cozy home in Washington.

Mr. Henry Kohler has built a new fence in front of his residence here.

Mrs. A. Metz, who has been ill with measles has fully recovered.

Mr. and Mrs. Patteson and Mr. and Mrs. A. Duarte of San Francisco are spending their vacation camping on the Yuba River near Canyon Creek.

Earl Foster accompanied by his grandfather Jos. Kamena and his uncle Alvin Kamena of Oakland arrived in Washington Sunday and left Monday leaving Mr. Kamena here for a two weeks vacation.

BROADT GRAVEL

Ed Norton and partner, who have a lease on the 80 acre Broadt ground in the Quaker Hill district, are now so far in that they have encountered good values in gravel in two channels. The men are endeavoring to secure eequipment to bring the property into a high state of production.

William Broadt of Trinity county, who is interested in the property spent the past week end in Nevada City visiting with former friends. He enjoys a visit to his former home each year.

ENGINEER MC NULTY TO SAIL FOR SOUTH AMERICA

A message has been received from Alexander A. McNulty, engineer formerly of North San Juan, who is in New Rochelle, N. Y. It will be remembered Mr. McNulty wrote articles for the Nugget and took an active interest in trying to secure water for the San Juan Ridge. He stated that he is receiving the Nugget and that he misses the mountains very much. Word of the progress being made on the Ridge was quite welcome. If plans go as he expects he will soon sail for Venezuela, S. A., to enter the field of mining.

Personal

Friends in Nevada City in are receipt of a letter from Albert Pratti, Eagle Scout, in which he states he is having a wonderful time. He is on a tour of the United States with 350 other Scouts. Albert stated he had been on board the Normandie, one of the largest passenger ships afloat. He had been all over it spending five hours aboard and enjoyed a French dinner of frog legs, which he said were great.

Mrs. Martha Hosken returned home Thursday from a vacation of several weeks spent in Sacramento and San Francisco with relatives.

Mr. L. R. Robins of Austin, Nev., motored to Nevada City Friday evening and on Eaturday morning. He was accompanied by his wife. Mr. Robins is superintendent of the Austin Silver Mine and they are to make their home in Austin, which is 6,000 feet above sea level and in the edge of the desert.

O. H. Hansen, former manager of the Purity store in thsi city and who is operating a store in Modesto, was greeting many friends in Nevada City Sunday. At present he is relief manager of the Purity store in Auburn.

Arthur M. Hoge, prominent mining man and superintendent of the Great Northern mine property of this section, was a business visitor in San Francisco this week end.

Dr. A. H. Tickell was called upon this morning to treat Cecil McQuay of Nevada City, who suffered a broken and lacerated large toe when a heavy piece of lumber fell on his foot.

Miss Gertrude Jones, deputy county assessor, is back at her post, after enjoying a vacation at Santa Cruz.

County Recorder S. J. Clark, and Mrs. Clark have returned from a vacation spent in the bay region.

Miss Mabel, who formerly was a teacher in the Nevada City high school is a guest of Mrs. Ray Murchie. She will be a guest, the latter part of the week of Mrs. C. E. Parsons. Her many friends in this city are glad to greet her again.

Mr. Charles C. Strandberg arrived Saturday evening from Oakland and is the guest of his brother and sister-in-law Mr. and Mrs. P. O. Strandberg at their home on Grove street.

Ronald Joyal, young son of Mr. and Mrs. Frank Joyal of this city, was operated on last Wednesday for the removal of his appendix by Dr. B. W. Hummelt. He is making such a fine recovery he will be able to return to his home in a few days, from the Nevada City Sanitarium.

Dr. B. W. Hummelt performed an appendectomy upon Mrs. Edward Latour of Downieville Friday in the Nevada City Sanitarium. She is making a satisfactory recovery.

Local residents were surprised to see a heavily overcast sky this morning upon arising. At 5:30 a. m. a light shower fell partly cooling off the close, sultry atmosphere of the last day or so.

Miss Betty McCarthy, who was operated on by Dr. A. H. Tickell about a week ago for the removal of her appendix was able to return home from the Nevada City Sanitarium today.

Visitors last week at the home of Mr. and Mrs. P. O. Strandberg were Mr. and Mrs. Ganahl MacMurray. Misses Jean and Virginia MacMurray, of Santa Paula, Mrs. Hammersley MacMurray and Miss Nina Rogers of San Francisco.

It is understood Mr. Locey, engineer for the Debris Commission is in the French Corral district with a crew, making a survey of the gravel left in the old channels that will be mined if the Narrows Dam is built.

MONDAY AND TUESDAY

RECKLESS Jean Harlow and William Powell team up to make one of the most thtrilling pictures of the '35 season. Fun, music, dancing, and drama put "Reckless" into the top-flight pictures. With May Robson and Franchot Tone.

WEDNESDAY AND THURSDAY

DOUBTING THOMAS The beloved Will Rogers gives another perfect performance as a thunder-struck husband of a stage-struck wife—and what he does about it is causing the nation to declare a laugh-holiday!

We have told you often that our rates are among the lowest in the country.

Don't take our word for it.

The Federal Power Commission ranks us as being only 19th from lowest in the United States for 40 kwh of domestic use.

The national average rate for a kilowatt hour of electricity for domestic use is 5.3 cents. The P. G. & E. average is 4.4.

The national average for farm power is 2.8 cents per kwh. Our average was 1.8 cents in 1934.

"Kilowatt" is a mysterious term to many. It's a unit of power, equaling one and one-third horsepower or the power of ten men.

A kilowatt hour isn't a time hour. It's the time consumed in using a kilowatt of electric energy.

ONE KILOWATT HOUR EQUALS: A horse and a pony working together for one hour, or One man working for 10 hours.

REMEMBER the first vacuum cleaner you ever used? Right then you put kilowatts to work. (Think of them either as horsepower or manpower.) Right then you decided your days of sweeping with a broom were over for all time. Electricity is, no doubt, doing the hard work of many other jobs in your home, because it does them easily and well for little money. Even a few pennies (that's little money, to be sure) will do a lot of scrubbing, beating, rubbing and churning when it hires electric servants.

4.4c for electricity will scrub 4 tubsfull of clothes, and in addition will beat batter for 2 dozen cakes, sweep 6 room-size rugs, and turn a sewing machine for an afternoon of dressmaking . . . **Honestly, doesn't electricity work cheaply?**

Even in the Orient, where labor is the cheapest, you can't hire a household servant to work ten hours for several times 4 cents.
